NEED A WEBSITE?

onQsites.

According to research from Nielsen, reported by Marketing Charts, more than 63% of consumers and small business owners turn to the internet first for information about local companies and 82% use search engines to do so, only 44% of small businesses have a website and half spend less than 10% of their marketing budget online.

The survey found that search engines are the most popular source for finding local information:

82% use search engines
57% use Yellow Pages directories.
53% use local newspapers
49% use Internet Yellow Pages
49% use TV
38% use direct mail
32% White Pages directories

Premier Websites from onQsites

Premier quality website programming services. Our team of skilled and experienced developers will make sure to provide the most optimal solutions for your needs. We will build you a user-friendly website that is easy to navigate with an intuitive interface.

We offer a "one stop shop" for getting your company on the web in a fast and economical manner. We understand that the process of getting and staying online can be very confusing and, often, unbelievably expensive. Our mission is to cut through the jargon, help you to decide how the internet can work for you, and to get your company online at a reasonable cost. We want to be your Website technical team that makes it easy for you to look like a "big dog" online!

Having a presence on the web is not enough. Your customers and potential visitors have to be able to find you online. We design your website with usability in mind, and even offer custom search engine optimization services for our clients who want to increase their position in the search engine rankings. We have the technical experience balanced with user friendly interfaces, striking design, marketing strategies, content management and rich internet applications that will make you look like you spent thousands.

on**Q**sites.com was formed out of a desire to provide businesses with top quality website programming services at an affordable price. Our team of skilled and experienced developers will make sure to provide the most optimal solutions for your needs. We will build you a user-friendly website that is easy to navigate with an intuitive interface with design and branding that will project an image of your successful company.

Why Us?

Having a presence on the web is not enough. Your customers and potential visitors must find you online. We design your website with usability in mind, and even offer custom search engine optimization services for our clients who want to increase their position in the search engine rankings.

Search Engine Optimization (SEO) involves making your web pages friendly to the search engine crawlers that are used to identify website theme and relevancy to particular search terms. Google, Yahoo and Bing (MSN) all have spiders or crawlers that try to determine what your website is all about. OnQsites specializes in increasing traffic to your website by improving your position in the search engine rankings, working diligently to determine your company's marketing needs and making your site content relevant, fresh, and search engine friendly – increasing your search engine rankings.

We have the technical experience, balanced with user friendly interfaces, striking design, marketing strategies, content management and rich internet applications that will make you look like you spent thousands. Get on the Web today and stand out from the crowd with your professional web presence. Choose a business plan to start and let us know your future needs. OnQsites.com wants to be your internet technology partner growing your business using powerful applications that can be additionally added to your site:

- Shopping Carts – E commerce
- Content Management Systems
- Complete Dynamic Data Driven Websites
- Real Estate Websites
- Lead Generating action pages
- Employment Websites
- News Aggregation
- Online Payment Systems
- Photo Galleries
- Dynamic Event Calendars
- Newsletter / Press Release Postings
- Employee Management
- Custom Scripting

This is just a small sampling of what we can provide for your web site.. There is no limit to what we can do. If you can imagine it, we can do it. Let us get started on your Business Website today – you've got nothing to lose! If you're not satisfied, you owe us nothing!
